

Combination Instruction for LOC011

- 1) On the inside of the case on the back of the combo lock is a change lever. It should be able to be changed from “a” to “b”. Please change the lever to “b”
- 2) Now set the dials to your combo code
- 3) Without changing the position of the dials push the change lever back to position “a”

If you use key lock with the combination please note the following:

When opening the case: 1st open the combo then the keys locks.

When closing: 1st close the key locks then close the combo.
