Pelican ProGear™

Elite Luggage

Watertight + Crushproof + Lightweight

PELICAN LIMITED LIFETIME GUARANTEE OF EXCELLENCE

Pelican Products, Inc. guarantees its Pelican ProGear™ Elite Luggage products against breakage or defects in workmanship for the lifetime of the original purchaser. To the extent permitted by law, Pelican's liability is limited to the case and not its contents. This lifetime guarantee does not cover the latches, handles, wheels, or internal accessories, including (as applicable) lid organizer, suit bag, laundry bag, shoe bag, toiletry bag, or any other internal accessory, all of which Pelican warrants against defects in materials and workmanship for a period of 90 days from the date of purchase. This warranty does not cover wear or damage caused by mishandling or carelessness of an airline or other transportation provider or normal wear and tear, including abrasions, minor cuts, scratches, dents or soil. All warranty claims of any nature are barred if the part or case has been altered, damaged or in any way physically changed, or subjected to abuse, misuse, negligence or accident.

WATERTIGHT LUGGAGE THAT DEFIES THE ELEMENTS

Be ready with Pelican ProGear™ Elite luggage. Molded of high impact polymer and fitted with a watertight O-ring seal, this luggage can resist everything on the open road, even water. Pelican ProGear Elite luggage passed submergence tests for an hour at a depth of one meter, so a tropical typhoon will feel like skipping through the rain- at least to your luggage.

This luggage also includes a waterproof purge valve that vents the interior, while blocking moisture.

LOCKING LATCHES BEAT BROKEN ZIPPERS.

The moment of truth is when your luggage appears on the baggage conveyor. And that's why Pelican ProGear™ Elite luggage uses our time-tested locking latches. It's the same design on a Pelican Protector Case™ used by soldiers, firemen and police forces around the world.

You'll also find a built in combination TSA lock - so simple it won't break.

Handles are located on three sides, and made of stainless spring steel over-molded with soft, durable rubber. This lay-flat design keeps them out of harm's way, but offers a comfortable grip when in use.

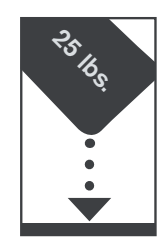

CRUSHPROOF LUGGAGE THAT'S LIGHTER THAN YOU THINK.

DOUBLE WALL DESIGN FOR UBER-STRENGTH

The world is a rough place, especially for luggage. And after 35 years of building Pelican protector cases we've seen it firsthand. Which is why Pelican ProGear™ Elite luggage uses double wall construction to withstand extreme loads- up to 1,500 lbs. Now you can travel with confidence (and fragile items). This luggage has also survived free-fall impact tests with up to 25 pounds of weight.

And we do this with a light touch: for all its rugged durability, Pelican ProGear Elite luggage is surprisingly light in your hand.

FEATURES

- Comfortable retractable handle
- Built in TSA approved combination lock
- Stainless steel hardware
- Recessed press and pull latches
- Custom designed ball bearing wheels with solid hubs
- Watertight o-ring seals
- Guaranteed for life
