CUSTOM SEWN CASES

See reverse for more custom sewn cases examples.

Experience and innovation makes Platt the leader – since 1921 – in the custom case industry. Our product development team and experienced engineering staff have the knowledge to create a custom solution to fit your unique requirements. Leverage the expertise of our engineers to develop a solution for your branding, protection and organization needs.

- Build your custom case to fit any needs. Size, pockets, protection, color and portability requirements can all be customized.
- Combine the lighter weight and sharp appearance of a custom sewn case with the protection and organization of a custom foam insert.
- Organize and protect your company's tools with custom tool pallets and rolls – sewn specifically for your set of tools. These pallets can be used along with Platt's extensive selection of tool cases.
- Brand your case with your logo - high quality embroidery or silk screening are available.
- Great for sales and marketing reps – professionally display your products to end customers, and protect those products on the road

CUSTOM FOAM

See reverse for more custom foam examples.

Experience and innovation makes Platt the leader – since 1921 – in the custom case industry. Since the start of the new century, Platt has added extensive capabilities in the design and manufacture of custom foam products. Our product development team and experienced engineering staff have the knowledge to create a custom solution to fit your unique requirements. Leverage the expertise of our engineers to develop a solution for your branding, protection and organization needs.

- Platt's custom-cut foam saves you time and provides the best in protection, professional presentation and organization for your project.
- Platt is a full-fledged foam fabricator. Customize your foam insert for any case or any application to fit perfectly around your items.
- Platt's Engineering team is expert in designing your foam insert, based on your requirements.
- Custom foam is available to use with any case, box or other application. Platt is your one-stop-shop for custom foam products, regardless of the application.
- Waterjet foam cutting cuts precise dimensions which give you a beautifully cut piece of foam.
- Many types of foam available, including polyurethane foam, polyethylene foam, low abrasion, or anti-static foam.
- Brand or identify your items with foam overlays that include text or logos. Label your parts or products to ease identification and product promotion.
- Add a velour topping to the foam for a more luxurious look to your insert.
- Great for sales and marketing reps – professionally display your products to end customers, and protect those products on the road.

GUARDSMAN™ CASES

1016HW

1018HW

1013

Guardsman™ Cases

- Heavy-duty cases, great for shipping, transporting and protecting your equipment.
- Tested for vibrations, water resistance, tumbling and drops to meet ATA 300, category 1 specifications. Your equipment will be protected under the most difficult conditions!
- Heavy-duty aluminum rim and gasket, full-length piano hinge, spring-loaded handle and recessed hardware are designed to withstand difficult shipping and transportation conditions.
- Significantly better performance and lighter weight than plywood ATA cases.
- Get superior protection and travel light with heavy-duty black HMW polyethylene material with unique continuous industrial frame based on Platt's patented Guardsman™ design and construction. Provides the best in high-impact strength, durability, crack resistance and chemical resistance.
- Cases include built-in TSA accepted combination lock to keep your case contents secure while traveling.

Custom Guardsman™ Cases

Experience and innovation makes Platt the leader – since 1921 – in the custom case industry. Our product development team and experienced engineering staff have the knowledge to create a custom solution to fit your unique requirements. Leverage the expertise of our engineers to develop a solution for your branding, shipping, protection and organization needs.

- Customized to your specific needs, these heavy-duty cases are strong but lightweight shipping cases ideal for computer, video, audio, medical, electronic instrumentation and industrial equipment.
- All orders, in quantities as few as one case, are quoted by Platt depending on size, foam interiors, other options and quantity.
- Construction features HMW polyethylene thermoplastic sheets bent to size and use our unique continuous frame construction for maximum strength and durability.
- Cases include full-length piano hinge, recessed spring-loaded handle and latches.
- Cases are available with built-in wheels and telescoping handle.
- Foam interiors can be made to your individual requirements using any type of foam, including polyurethane foam, polyethylene foam, low abrasion, or anti-static foam.
- Options include different colors, stacking studs, TSA accepted combination lock, fixed or removable casters, wheels and telescoping handle, key lock, and padlockable latches.
- Brand the exterior of your case with custom aluminum nameplates
- Platt's Guardsman™ cases are available in black, safety yellow, gray, orange and blue. Other special colors are available with minimum order requirements. Also available as a Jetalum™ all aluminum construction.

TRAVEL SENTRY® APPROVED

Using the TSA Accepted lock allows your luggage to be unlocked and inspected by security authorities without damage.
